

The Corporation of the Township of Norwich

Advisory

March 2, 2026

Reduced load restrictions in effect for the Township of Norwich

The Township of Norwich wants to remind residents and businesses about the reduced load restrictions (5 tonnes per axle) on several municipal roads.

Reduced Load Period restrictions occur seasonally, based on weather and road conditions, and typically run from March 1 to April 30. Reduced load restrictions begin today, March 2, 2026. Watch for the reduced load restriction signs on municipal roads with reduced limits.

The Township of Norwich implements a Reduced Load Period under the authority of Section (7) of the Highway Traffic Act and Township of Norwich By-law 44-2025. The Reduced Load Period designation may be lifted before April 30 if weather conditions allow.

The [Reduced Load Limit map](#) shows the Township roads affected by these restrictions. For County Roads, please view the [Oxford County Reduced Load Limit Map](#). Find more information at <https://www.norwich.ca/our-services/roads/>.

For more information about Reduced Load Period restrictions, maps and by-laws, please visit The Township's website.
