Oxford Road 59 (Church Street) reconstruction in Burgessville

About this project

Oxford County is beginning road reconstruction work on Oxford Road 59 (Church Street) from 150 metres west of Deer Crescent to 150 metres east of Smiths Lane in the Village of Burgessville in Norwich Township. The work includes full road reconstruction, urbanization of the road cross section, and sidewalk and street lighting upgrades.

During construction, this section of Oxford Road 59 will be closed to through traffic and will be limited to local residents, businesses and emergency services for the duration of the project.

Construction work is tentatively scheduled to begin in May 2026 and is expected to be completed in December 2026. Please note that construction schedules are weather-dependent and subject to change based on site conditions, contractor availability and other factors.

Public Information Centre

A Public Information Centre (PIC) will be held to allow the public to view plans and discuss the project with Public Works Engineering staff and the consultant design team.

Thursday, April 30, 2026 | Drop in: 4:30 – 6:30 p.m.

Norwich Township municipal building | 285767 Airport Road, Norwich

How will the project impact me?

Traffic control

During construction, this section of Oxford Road 59 will be closed to through traffic and will be limited to local residents, businesses and emergency services for the duration of the project. Construction will be completed in two phases with detour routes in place:

Phase 1: Oxford Road 59 (Church Street) will be closed to through traffic from the west limit of town to the east limit of town.

Phase 1 detours:

Northbound traffic: Oxford Road 40 and Oxford Road 14

Southbound traffic: Oxford Road 13 and Quaker Street

Phase 2: Oxford Road 59 will be closed from west of the Church Street and Main Street intersection to the west limit of town.

Phase 2 detours:

Northbound traffic: Main Street North/Middletown Line and Oxford Road 40

Southbound traffic: Oxford Road 13, Quaker Street, and Main Street South/Middletown Line

The contractor will be required to maintain access as best as possible to all properties. Some short-term interruptions and delays can be expected during this work. Emergency services and buses will be notified of all road closures and lane restrictions.

Construction map

Garbage and recycling

Access to waste and recycling collection is expected to be affected during construction. During construction, the contractor will collect homeowner bins and take them to a central location for collection. Property owners are asked to mark garbage and recycling containers with their house number so they can be returned to the correct property. Please continue to have your regular household waste and recyclables on the roadside by 7:00 a.m. on your regular pick-up day.

Equipment vibrations

Construction equipment can cause vibrations during construction. Please ensure you protect any valuables susceptible to damage.

Private sprinkler systems, landscaping or fencing

Please remove all items on Oxford County property in advance of construction. The County is not responsible for damage to private landscaping items located on County property.

Lawn restoration

Following construction, the contractor will place new sod on affected properties and water it as needed for 30 days after placement. After the 30 days, the sod maintenance and watering is the responsibility of the property owner, as it was prior to construction.

Safety

Please help keep our community and workers safe: respect work zones, obey traffic signs, and maintain a safe distance from equipment and vehicles entering and leaving the site.
